FOMH&G Encourages The Use Of Ground Penetrating Radar Prior to Any Ground Disturbance On The Property

The FOMH&G recognizes that all construction on historic properties should adhere to the standards of the Secretary of the Interior including “mitigation measures” when archeological resources will be disturbed.

Officers

*Michelle Slater – Secretary
Matt Foree – Treasurer
Steve Gibson – President*

We support the use of ground penetrating radar to map the grounds in order to discover the locations of:

- Slave quarters
- Possible grave sites
- Historic Outbuildings
- Native American Artifacts
- Civil war artifacts
- Other building foundations or archeologically important elements

The Friends of Mimosa Hall & Gardens

*120 Bulloch Avenue
Roswell, Georgia 30075
www.friendsofmimosa.org*

Our mission is to champion sustainable preservation of Mimosa Hall and Gardens, where history and culture engage and uplift community
